SPRING COLOR

FINITURE NATURALI DAL 1992

DILUENTE VEGETALE

DESCRIPTION

Diluente Vegetale is a natural solvent based on orange terpene, natural turpentine obtained by distillation, and essential oils. This solvent is used for cleaning tools, for possible dilution of Spring Color solvent-based products, and for cleaning surfaces before painting.
Suitable for both interior and exterior use.

FIELD OF APPLICATION

The product acts as a solvent for raw and boiled linseed oil-based products, beeswax and other natural waxes, resins, and linseed oil-based paints.
It is used to wash and degrease surfaces before painting, as well as to remove stains and deeply clean glass, tiles, and Formica surfaces. In the fine arts sector, Vegetable Thinner is used for oil paints, to clean tools and work surfaces.

COMPONENTS

Orange terpene, vegetable turpentine

PREPARATION OF SUPPORT AND APPLICATION

Can be used as a thinner or degreasing agent. Vegetable Thinner must be used with great care due to its high volatility and strong absorption into substrates. It is flammable.

GENERAL FEATURES

DILUTION: ready to use
COLOR: neutral
PACKAGING: 12 L can, 4 L can, 0.75 L jar

PLACE OF PRODUCTION: facility in Via Jesina 63, Castelfidardo (AN)
PLACE OF PACKAGING: facility in Via Jesina 63, Castelfidardo (AN)
STORAGE: over 12 months in the original, intact packaging, stored away from very low temperatures close to 0°C, from freezing, from temperatures above 30°C, and from excessively humid environments. Flammable product – keep away from heat sources.

NOTES

The information provided in this technical data sheet is based on our practical experience; however, it should be considered indicative and is not intended to be exhaustive. Spring Color reserves the right to make technical modifications without prior notice. This technical data sheet cancels and replaces all previous editions. Spring Color assumes no responsibility for improper use of the products. This technical data sheet is an informational document and cannot be used as a basis for legal claims.
As we cannot directly intervene in site conditions or in the execution of work, the indications provided here are of a general nature and are not binding on our company. It is therefore recommended to carry out one or more tests to verify the suitability of the product for the intended use.

WARNINGS

-Keep out of reach of children.
-All components can be disposed of through standard waste procedures. Avoid disposing of residues into the sewage system.
-Do not ingest; avoid contact with skin and eyes.
-Ensure proper ventilation during and after use.
-Protect surfaces not intended for painting.
-Consult the safety data sheets.
