COLORI DI MADRE NATURA

DESCRIPTION

“Colori di Madre Natura” are tempera paints formulated with natural ingredients. Designed for educational and artistic use, they feature a rich, dense, opaque, and vibrant consistency. They provide excellent coverage and are easy to use. These temperas do not contain petrochemical-derived components such as acrylic resins, vinyl resins, solvents, phthalates, formaldehyde, heavy metals, gluten, or any other substances known to be hazardous. Mother Nature’s Colors are available in 12 shades and are dermatologically tested.

FIELD OF APPLICATION

“Colori di Madre Natura” can be used on paper, cardboard, canvas, wood, cork, terracotta, walls, and glass.

COMPONENTS

Milk, egg, and plant-based gums, calcium carbonates, cellulose, starches, linseed oil, cosmetic preservative. The colors come from mineral pigments (earths and oxides); for some colors, there are minimal additions of synthetic pigments.

PREPARATION OF SUPPORT AND APPLICATION

“Colori di Madre Natura” are ready to use. Use them pure to achieve an opaque effect, or add water to achieve more transparency, up to the consistency of watercolor. The colors are mixable with each other to create a variety of shades. Do not use on dusty surfaces or on surfaces painted with washable paints or enamels. Mother Nature’s Colors are suitable for fabric decoration, but not for dyeing.
