ICARO

Maintenance Wax – Self-Polishing

DESCRIPTION

Icaro is a self-polishing maintenance wax made from natural raw materials.

COMPONENTS

Water, gum arabic, ethyl alcohol, Turkish oil, <1% carnauba wax, potassium coconut soap, linseed oil, lavender essential oil, lecithin.

DIRECTIONS FOR USE

For proper and long-lasting results, follow these guidelines:

- Mix the product well before use.
- Apply evenly using a damp cloth or wax applicator.
- The use of a polishing machine is not required, but can enhance gloss.
- To prepare a wash-and-wax solution, mix 150 ml of Icaro with 200 ml of Igea in 5 liters of water.
- Do not apply at temperatures below 8°C.
- Allow the surface to dry completely before walking on it.
- Ready to use.

Diluting beyond the recommended levels will compromise the product's performance.

STORAGE

The product in the container, when stored in a place protected from sunlight and at temperatures not below 5–7°C, has a shelf life of 2 years.
